Who We Are

Western Doctors in Recovery is a regional group of health care professionals modeled after the New England Professionals Group (NEPG) and following the principles of IDAA.

Our first meeting, in 2105, got good reviews, and so did the others. You can see all the past programs at www.westerndoctorsinrecovery.com

"The caliber of the lectures was amazing, probably the best ever in one place at one time. It was a great mix of the medical and the AA. The quality of the speakers was profound."

"This is my second year of attending. Seeing many of my colleagues and friends from last year was what I had hoped for! We are forming a community! I am honored and grateful to be part of it."

"Transforming, Enlightening, Encouraging, Supportive. It had a profound effect on my recovery and my life. I will keep coming back, with deep gratitude for the new friends I made. Thank you with all sincerity."
